

Future Activities

Culmination of 2021's Transition Work

- Transition to cloud-only operations
 - Support ASDC's cloud migration effort
- Operational release of Earthdata Pub (will be open source)
- Open source release of FCX
- Operational release of Bulk Downloader - Awaiting GSFC legal approval
- Web page refresh and migration to serverless, cloud solution
- Pursue new dataset opportunities
 - Several lightning datasets and campaigns
 - Collaborations with other NASA entities, such as SERVIR
 - Additional campaign proposals for unpublished campaigns at ADMG
- Shift focus to new capabilities for data in the cloud
 - Implement FCX operationally in web page
 - Lightning dashboard - Leveraging open source COVID dashboard with data in the cloud
 - Explore archival / preservation of various airborne data and information

THANK YOU!
