

# Table of Contents

1.	Executive Summary .....	1
1.1	Introduction .....	1
1.2	Mission Summary .....	1
1.2.1	Investigation Concept .....	1
1.2.2	Key Science .....	1
1.2.3	Demonstration Goals .....	2
1.2.4	Experiment Design .....	2
1.2.5	Technical Implementation .....	2
1.2.6	Mission Management .....	3
1.2.7	Education and Public Outreach .....	3
1.2.8	Cost Summary .....	3
1.3	Changes From the First Proposal .....	4
1.3.1	New Title .....	4
1.3.2	Creation of Project Office .....	4
1.3.3	Contractual Risk Reduction .....	4
1.3.4	Deployment Site .....	4
1.3.5	Expanded Educational Outreach .....	5
1.3.6	Changes in Key Personnel .....	5
1.4	Resolution of Issues and Concerns .....	5
1.5	Identified Strengths in Initial Proposal .....	7
1.5.1	Science Strengths .....	7
1.5.2	Technical Strengths .....	7
1.5.3	Management Strengths .....	7
1.5.4	Outreach Strengths .....	7
1.5.5	Cost Strengths .....	7
2.	Science Plan .....	9
2.1	Introduction .....	9
2.1.1	Background and Relevance .....	9
2.1.2	Mission Concept .....	9
2.1.3	Advantages of the ALTUS Over Alternate Platforms for Storm Investigations .....	10
2.2	Science .....	10
2.2.1	Lightning-Storm Relationships .....	11
2.2.2	Lightning Imaging Sensor Validation .....	13
2.2.3	Global Electric Circuit and Storm Electrical Budget .....	14
2.3	Field Campaigns .....	16
2.3.1	Mission Requirements .....	17
2.3.2	Expected Weather .....	17
2.3.3	Example Flight Patterns .....	17
2.3.4	Alternate Deployment Site .....	18
2.3.5	Mission Constraints .....	19
2.3.6	Low Level of Risk .....	19
2.3.7	Mission Success Metrics .....	19
2.4	Baseline System .....	20
2.4.1	UAV Platform .....	20
2.4.2	Flight Instrumentation .....	20
2.4.3	Ground-Based Instrumentation .....	25
2.5	Descope Options .....	26
2.6	Data Analysis, Archival, and Distribution Plan .....	27

2.6.1	Analysis Concept Relative to Mission Requirements .....	27
2.6.2	Quality Assurance Approach .....	28
2.6.3	Facility Needs .....	29
2.6.4	User Interface and Archival Plan .....	29
3.	Technical Plan .....	31
3.1	Payload Integration Plan .....	31
3.1.1	Payload Requirements .....	31
3.1.2	Issues and Concerns of the Instrument Team and UAV Provider .....	31
3.1.2.1	Instrument Team .....	31
3.1.2.2	UAV Provider .....	31
3.1.3	Instrument Modifications and Impact on Payload Integration .....	32
3.1.4	Onboard Communication .....	32
3.1.5	Interface Control Document Development .....	32
3.1.6	Payload Certification and Test Flights .....	32
3.1.7	Payload Integration Schedule .....	33
3.2	Deployment Plan .....	33
3.2.1	Facility Needs .....	33
3.2.2	Expendables .....	33
3.2.3	Scope of Deployment .....	33
3.2.4	Reviews .....	34
3.2.5	Deployment Schedule .....	34
3.3	Flight Plan .....	34
3.3.1	Mission Flight Concept .....	34
3.3.2	Mission Flight Location/Profile/Performance .....	36
3.3.2.1	Avoidance of Lightning .....	36
3.3.2.2	Avoidance of Turbulence (Standoff Distance) .....	36
3.3.2.3	Performance .....	36
3.3.3	Flight Planning Criteria .....	36
3.3.3.1	Mission Planning .....	36
3.3.3.2	Flight Planning Process .....	37
3.3.4	Go-No Go Criteria .....	37
3.3.5	Roles and Responsibilities .....	38
3.4	Non-NASA Aircraft Safety Plan .....	38
3.4.1	NASA Safety Review Process for UAV .....	38
3.4.2	Flight Parameters of the ACES Program .....	38
3.4.3	Airworthiness of Aircraft .....	38
3.4.4	Capability of Aircraft to Meet the ACES Flight Requirements .....	39
3.4.5	Background and Experience of Operators .....	39
3.4.6	Demands Placed on UAV Service Provider .....	39
3.4.7	System Hazards .....	39
3.4.8	Mission Vulnerability to Identified System Hazards .....	39
3.4.9	Safeguards .....	40
3.5	Airspace Management Plans .....	40
3.5.1	Flight Range Selection .....	40
3.5.2	Range/Air Space Approval Plan .....	40
3.5.3	Roles and Responsibilities .....	40
3.5.4	Schedule .....	41
4.	Management Plan .....	43
4.1	Management Organization .....	44
4.1.1	Roles and Responsibilities .....	44
4.1.2	Changes in Personnel From Original Proposal .....	45
4.1.3	Organization Structure .....	45

4.1.4	Relationships Between Team Institutions and Organizations .....	45
4.1.5	Experience and Capabilities of Team Member Organizations .....	45
4.1.5.1	MSFC/NSSTC .....	45
4.1.5.2	GSFC .....	46
4.1.5.3	GA-ASI .....	46
4.1.5.4	IDEA, LLC .....	46
4.1.6	Decision-Making Process .....	46
4.2	Work Breakdown Structure .....	46
4.3	Project Control Plan .....	47
4.3.1	Systems Engineering .....	47
4.3.2	Resources and Schedule Management .....	48
4.3.2.1	Resource Management .....	48
4.3.2.2	Schedule Management .....	48
4.3.2.3	Metrics .....	48
4.3.3	Contract Management .....	49
4.3.3.1	PI Institution with the UAV Provider .....	49
4.3.3.2	PI Institution with the Co-I Institution and the Flight Range .....	49
4.3.3.3	PI Institution with the FPDS and Payload Support Equipment Provider .....	49
4.3.4	Configuration Management .....	49
4.3.5	Project Assessment .....	49
4.3.5.1	Management Reviews .....	49
4.3.5.2	Technical Reviews .....	50
4.3.5.3	Safety Reviews .....	50
4.3.6	Team Member Coordination and Communication .....	50
4.4	Master Schedule .....	50
4.5	Project Risk Assessment and Management Plan .....	50
4.5.1	Scope .....	52
4.5.1.1	Payload Power .....	52
4.5.1.2	Payload Mass .....	52
4.5.1.3	Payload Volume .....	52
4.5.1.4	UAV Altitude .....	52
4.5.1.5	UAV Availability .....	52
4.5.1.6	UAV Turnaround Time .....	52
4.5.1.7	UAV Weather Capabilities .....	52
4.5.1.8	UAV Range Constraints .....	52
4.5.1.9	Other Risk Mitigation Options .....	53
4.5.2	Schedule Risks Mitigation .....	53
4.5.3	Budget Mitigation .....	53
4.5.4	Risk Management Plan .....	53
4.6	Liability Assessment Plan .....	53
5.	Outreach Plan .....	55
5.1	Outreach Concept .....	55
5.2	Media Outreach .....	55
5.2.1	Public Affairs .....	55
5.2.2	Web-Based Outreach .....	56
5.3	Education Outreach .....	57
5.3.1	Lesson Plan Concept .....	57
5.3.2	Lesson Plan Structure .....	57
5.3.3	Discussion of the Flight Decision Exercises .....	58
5.3.4	Lesson Plan Development .....	59

5.4	Relationship With Ongoing Activities .....	59
5.5	Graduate Student Participation .....	59
6.	Cost Plan and Supporting Documentation .....	61
6.1	Overview .....	63
6.1.1	Cost Estimating Methodology .....	63
6.1.2	Heritage .....	64
6.1.3	Staffing Summary .....	64
6.1.4	Mission Cost Reserves .....	64
6.1.5	Descope Cost Savings .....	65
6.1.6	Flight-Hour Cost Protection .....	65
6.1.7	Education and Public Outreach Contribution .....	65
6.2	Cost and Staffing Plan Summary .....	66
6.2.1	Table 1–Total Mission Cost Funding Profile .....	69
6.2.2	Budget Summaries .....	70
6.2.3	Detailed Budget Summaries .....	74
6.2.4	Staffing Plan Summary .....	76
6.2.5	Direct Materials, Labor Rates, and Travel Cost .....	77
6.3	Phased Cost Estimates .....	78
6.3.1	Predeployment Cost Estimate .....	80
6.3.2	Deployment Cost Estimate .....	89
6.3.3	Postdeployment Cost Estimate .....	96
6.4	Supporting Documentation .....	105
6.4.1	ACES Master Schedule .....	105
6.4.2	ACES Detailed Schedule .....	109
6.4.3	Detailed Project WBS Dictionary .....	119
6.4.4	Partner Cost Estimates .....	135
7.	Letters of Commitment .....	159
8.	Vitae .....	175
9.	Current and Pending Support .....	189
10.	Reference List .....	193
11.	Acronym List .....	199
