

# APR-2 STATUS FOR AUG 24 POST FLIGHT

Submitted by **simone** on Tue, 08/24/2010 - 16:48

- **APR-2**

Flight Date:

Monday, August 23, 2010

Sortie Number:

7

APR-2 had an excellent flight.

The problems on Ku-crosspol channel previously reported ceased during the flight.

We collected approximately 6.7 GB of data over a wide variety of cloud and precipitation conditions, including strong convection and stratiform precipitation.

S.T.

Status:

Green
