

Flight Report Aug 30 2010

Submitted by **abansemer** on Sun, 09/19/2010 - 09:59

- **CAPS/CSI/PIP**
- **Earl**

Flight Date:

Monday, August 30, 2010

CAPS, CDP, and Rosemount Icing probe worked well during hurricane portion of the flight. PIP was still not operational after failure on the previous flight. CAPS will need to be cleaned due to condensation during rapid descent to STX in humid conditions. Only small-particle (sub-50 micron) was collected on ferry from STX-FLL.

CSI not flown.

Status:

Yellow
