

DAWN flying

Submitted by **gradykoch** on Sun, 08/29/2010 - 11:46

- **DAWN**
- **Earl**

Flight Date:

Saturday, August 28, 2010

DAWN is operating during flights into Earl today. Lldar measurements are being recorded, but processing problems still prevent real-time or quick-look results (hence condition listed as yellow). However, recorded results can be processed later for wind measurements.

Status:

Yellow
