

Ready to fly, instrument prep and testing today

Submitted by **andreasjb** on Thu, 08/19/2010 - 07:44

- **LARGE**

Flight Date:

Wednesday, August 18, 2010

LARGE ran well during flight 6 and saw some interesting particle variability. We will be servicing some of the instruments today and doing some testing to improve the pressure control on our CCN. We are ready for flight whenever.

Status:

Green
