Flight Date:

Sun, 09/26/2010

Mission science summary for September 26, 2010

## **IFEX**

The G-IV is currently tasked by NHC for a mission in the northwest Caribbean for Monday, with a take-off of 1730UTC. A follow-on mission has been tasked for the same time on Tuesday. The P-3 is currently not tasked, but the system in the Caribbean is being watched closely for possible tasking.

## **GRIP**

The GH has a possible dropsonde vibration test scheduled for Monday.

The WB-57 has a no-fly day on Monday, but is on alert for a possible mission into the Caribbean system on Tuesday, provided that system is in range.

## **PREDICT**

The G-V has a mission scheduled in the northwest Caribbean for Monday, take-off of 12UTC. A mission is also tentatively scheduled for Tuesday, same take-off time. It would target either the Caribbean system or PGI48L, to the east of the islands.

## **AIR FORCE**

The Air Force has an invest mission scheduled in the Caribbean system. Fix times are 18UTC Monday and 06UTC and 12UTC Tuesday.
