Data collection status

Submitted by patrick.gatlin on Wed, 04/20/2011 - 22:39

APU

Flight Date:

Wednesday, April 20, 2011

Status: Green

All 16 APUs are now collecting data. Some updates will be made tomorrow to remove some unneeded cron jobs causing the Parsivel software to hang at 6am every day. Also, each APU site will be visited tomorrow to make final checks.

Status:

APU01: Parsivel collecting data; rain gauges collecting data; remote comms working

APU02: Parsivel collecting data; rain gauges collecting data; remote comms working

APU03: Parsivel collecting data; GSFC rain gauges awaiting data logger modification; remote comms working

APU04: Parsivel collecting data; GSFC rain gauges awaiting data logger modification; remote comms working

APU05: Parsivel collecting data; GSFC rain gauges awaiting data logger modification; remote comms working

APU06: Parsivel collecting data; GSFC rain gauges awaiting data logger modification; remote comms working

APU07: Parsivel collecting data; GSFC rain gauges awaiting data logger modification; remote comms working

APU08: Parsivel collecting data; rain gauges collecting data; remote comms working

APU09: Parsivel collecting data; rain gauges collecting data; remote comms working

APU10: Parsivel collecting data; rain gauges collecting data; remote comms working

APU11: Parsivel collecting data; rain gauges collecting data; remote comms down

APU12: Parsivel collecting data; rain gauges collecting data; remote comms working

APU13: Parsivel collecting data; rain gauges collecting data; remote comms working
