

Data Collection Status

Submitted by mattwingo on Thu, 04/21/2011 - 21:23

- [APU](#)

Flight Date:

Thursday, April 21, 2011

Status:

Green

All 16 APUs are collecting data. Each APU site was visited today for visual inspection, final installations, and adjustments. Tipping buckets were installed at APU 13. The CS data logger programs were modified for the GSFC gauge pairs. All 16 APUs have remote wireless communication. Eight of the APU computers received a software package update to prevent hanging. The remaining eight will be updated tomorrow.

Light rain fell across the entire APU array today.

Status:

APU01: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU02: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU03: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU04: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU05: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU06: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU07: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU08: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU09: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU10: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU11: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU12: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU13: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU14: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU15: Parsivel collecting data ; rain gauges collecting data; remote comms working

APU16: Parsivel collecting data ; rain gauges collecting data; remote comms working
