

HIWRAP

Submitted by gheymfield on Tue, 04/26/2011 - 09:52

- [HIWRAP](#)

Flight Date:

Monday, April 25, 2011

Status:

Green

HIWRAP worked through the flight except for a reset early in the flight. The data loss for this reset occurred between 0838 - 0852 UTC. We just received and set up our ground computer yesterday so we will be looking more closely at data in the next few days. No anomalies were observed in system although we are looking closely at transmit power variation with temperature since this was a very cold flight.
