

# NPOL Daytime Radar Scientist Report

Submitted by dwolff on Thu, 05/05/2011 - 18:15

- [NPOL](#)

Flight Date:

Tuesday, May 3, 2011

Status:

Green

NPOL ran in Scan 0 all day, as only precipitation echoes were occurring well to the north and northeast associated with a weak, dry cold front. New synching parameters for RHIs in Scans 2 and 3 are being added to IRIS (approximately 2315 UTC) as per consensus.
