

NPOL Radar Scientist Report 1200 UTC 06 May 2011

Submitted by dmarks on Fri, 05/06/2011 - 06:36

- [NPOL](#)

Flight Date:

Friday, May 6, 2011

Status:

Green

No significant precipitation seen during the night. Radar setup was adjusted during the day. RHI elevation acceleration is now removed, as well as angle syncing, and scan 2 and 3 have been sped up to 2 degrees per second scanning speed. Other than that, all is quiet on the western front
