

NPOL is operational

Submitted by dwolff on Sun, 05/08/2011 - 18:40

- [NPOL](#)

Flight Date:

Saturday, May 7, 2011

Status:

Green

Some showers to S and SW of radar. Will probably pass S and E overnight as they decay. Dry line evident to W on radar and via visible satellite. A/C seems to be holding. Have checked coils a couple of times during heat of the day and they seem to be holding.
